About

Senior Frontend Developer with 10+ years of experience delivering high-quality digital solutions across product, agency, and large-scale government environments. Skilled at translating complex requirements into fast, accessible, and pixel-perfect user experiences using modern JavaScript and AI tools for efficiency. Builds with React, TypeScript, and Tailwind CSS, and adapts quickly to new technologies. Outside of work, trades stacks for peaks, hiking whenever possible.

Skills

Frontend: React, TypeScript, Tailwind CSS, Next.js, Vue.js, Redux, Zustand, JavaScript (ES6+), HTML, CSS, Sass (SCSS), MUI, D3.js

Unit Testing: Jest, Vitest, React Testing Library

Accessibility: WCAG 2.2 (AA), WAI-ARIA, Axe, WAVE, NVDA

Standards & Performance: Responsive Design, Cross-Browser Compatibility, SEO, Core Web Vitals, Lighthouse

Backend & Data: PHP, SQL, Laravel, REST APIs

CMS & Platforms: WordPress (Themes, Plugins), Salesforce (Lightning Web Components)

Tools & DevOps: Git (GitHub, GitLab, Bitbucket), Azure DevOps, Jira, Confluence, Storybook, npm, Vite, Webpack, VS Code, GitHub Copilot, Claude Code, Cursor, Figma, AWS (S3, CloudFront, Elastic Beanstalk), Netlify

Practices: Agile (Scrum, Kanban)

Experience

Accenture | Frontend Consultant | Calgary

Jun 2024 — Feb 2026

- Delivered **three major Salesforce releases** by building Lightning Web Components for a government platform serving millions of users.
- Collaborated with **designers, backend engineers, and QA teams** to produce high-quality features in an Agile environment.
- Contributed to an **architecture task force** defining an API-driven frontend framework, improving maintainability and scalability.
- Leveraged **AI tools (GitHub Copilot)** to improve development efficiency and accelerate execution.

Infosys | Frontend Consultant | Calgary

Sep 2023 — Mar 2024

- Implemented a global layout and **five reusable components** within a monorepo architecture for a large-scale rebrand using HTML, Sass, React and TypeScript.
- Resolved **100+ production support tickets**, delivering enhancements and fixes.
- Ensured **full WCAG 2.2 AA accessibility compliance** through audits and remediation.
- Mentored developers through **knowledge transfers and code reviews**.

tbk Creative | Frontend Developer | Calgary

Apr 2022 — Aug 2023

- Developed **six custom websites and web applications** for leading brands by creating reusable React component libraries in Storybook.
- Integrated components with **WordPress and Laravel** backends using PHP.
- **Actively participated in requirements discussions** and Agile ceremonies, providing input to shape solutions.
- Introduced **Next.js and Tailwind CSS**, modernizing the tech stack and improving development efficiency.

Wise Publishing | Frontend Developer | Toronto

Feb 2021 — Apr 2022

- Built the UI for **three internal web applications** using Next.js and Vue.js with a Laravel backend.
- Created **three personal finance tools** using React, REST APIs, and D3.js visualizations.
- **Boosted website performance by 25%** by optimizing Core Web Vitals metrics.
- Designed HTML email templates for a newsletter with **200,000 subscribers**.

Innovapost (Canada Post) | Frontend Developer | Toronto

Apr 2018 — Feb 2021

- Modernized website architecture across **three major initiatives**.
- Led the implementation of **two bilingual blogs** on a WordPress Multisite.
- Participated in creation of the **Mercury Design System**, improving consistency across digital products.
- Launched marketing microsites and SPAs for **\$1M+ campaigns**.

Education

MSc Computing — Cardiff University

BA (Hons) Journalism — Lancaster University
